BUILDING SAND

Manufactured to BS EN 13139 standard.
Building sand is a soft sand suitable for
bricklaying and pointing applications.

PLASTERING SAND

Finer grade sand making it ideal for rendering, plastering and screeding projects. Manufactured to BS EN 13139 standard.

CONCRETING SHARP SAND

A coarse sand used in screeding, block and slab laying applications and mixing concrete. Manufactured to BS EN 12620 standard.

KILN DRIED SAND

Used as an in-fill between block paving, KDS is a clean, fine, dry aggregate sand for brushing into joints of paving to help prevent movement, while still allowing drainage.
